**Assessment Description**

The Consultants Report consists of a critical analysis of an IT service technology for a client and a recommendation to that client based on their needs. Assignments 2 and 3 are preliminary steps to creating the final report. Assignment 4 is an oral presentation of the report. For more information on this, see the document **Introduction to your Consultants Report**.

Teams also critically review TWO articles, present their review of ONE of them and lead class discussion in Weeks 4 and 9 as well as create a profile of their team's capabilities.

The two In-class tests are closed book

Note:

The School's 40% barrier rule (cf. Grading criteria), will be applied to the combination of the two in-class exams So in order to Pass this subject, you need to achieve at least 40% of both in-class tests together.
